**SDCWA EMERGENCY**  
**Shutdown Notice**

**Aqueduct Pipeline**  
**10-Day Shutdown for Repairs**  
**February 28 thru March 10**

# UPCOMING SDCWA SHUTDOWN NOTICE

In preparation for the **10-Day SDCWA EMERGENCY SHUTDOWN**, the District strategically placed temporary diesel water pumps to provide continuous water service to those customers affected by the emergency shutdown.

The District is aware that these pumps can be noisy and will make every effort to minimize the use of the pumps when possible. **Please note** there may be a need to run these pumps day and night throughout the duration of the repairs.

We ask customers to curtail outdoor irrigation to the **MAXIMUM EXTENT POSSIBLE beginning February 28, 2022**, through the duration of the shutdown. We suggest customers **deep soak** their groves and landscaping **PRIOR to February 28th** to minimize the impact on our water supply.

The shutdown is scheduled to run for approximately 10 days, however, these dates may be adjusted depending on the extent of the repairs.

Any updates on this emergency shutdown will be provided on our website.

Your cooperation is greatly appreciated!
